

## **Presentation for Humanity in Action**

04-06-2013

On 4 June, Annemarike Stremmelaar was a speaker on a panel about "A Controversy in the Dutch media: Anti-Semitism of the Youth" organised by Humanity in Action as part of their educational program on human rights. After Mehmet Sahin, researcher at VU University, had given a presentation on his experiences with countering antisemitism, particularly in a Turkish-Dutch environment, she gave an account of the debate on antisemitism and its relation to the Middle East and Turkey. This was followed by a lively discussion about the causes of and solutions for antisemitism.
